VOL. XVIII, NO. 11

WRANGELL, ALASKA, THURSDAY, MARCH 6, 1919

PRICE TEN CENTS

CABLE NEWS

SEATTLE—The Sixty-ninth Coast Artillery arrived from France this morning. Fitting demonstrations of welcome are being made throughout the city.

SEATTLE—The Seattle Central Labor Council last night voted 10 to 1 expelling I. W. Ws. from membership.

WASHINGTON—A nation wide campaign of the solid 37 Republican senators under the leadership of Borah, Lodge and Knox against the adoption of the League of Nations will be opened in New York tonight by Senator Borah.

BERLIN—Heavy fighting in progress for possession of police headquarters which are still held by the government forces. Order has been restored at Halle.

PARIS—Lloyd George having arrived the "Big Five" sitting as a supreme war council was today able to resume discussion of military naval terms for Germany. The fate of the German fleet now interned at Scapa Flow off the coast of Scotland is up for discussion.

CHICAGO Another terrorist plot hatched by the anarchists and I. W. W. of this city has been frustrated by the Federal authorities with the arrest of several of the prominent leaders and seizure of convincing evidence which will help to locate others connected.

The attempt which police prevented by their timely action, included a plan to destroy the Army Building, the Union League Club and several other great structures in the heart of the city with the aid of bombs manufactured from T. N. T. The Federal authorities declare they had been watching the plotters for sometime and caught the leaders just as they were about to put into action.

WASHINGTON—A. Mitchell Palmer, U. S. custodian of alien enemy property, in his report to Congress today declares that he found extensive holdings in the mines and canneries of the territory of Alaska but was unable to discover a majority of interest which would justify seizing the properties.

SALT LAKE CITY—Liquor valued at \$8,000, was discovered by some boys while playing near a tunnel at the back of a garage. The police seized the liquor but could not find the owner of the house into which the tunnel led.

LONDON—Bolshevism and anarchy are sweeping the German Government and the situation is exceedingly grave say British correspondents who are stationed in Berlin.

BERLIN—The German Government has issued a manifesto in which it proclaimed its faithfulness to the principles of democracy but adds, "The blockade is eating away the vitals of our people. Thousands are perishing daily from ill nourishment." The proclamation also denounces the terrorists' attempt to abolish the National Assembly by cutting off communication.

PARIS—Dispatches from Berlin and Berne, report that loyal Bavarian troops who are opposed to the Bolsheviks and their methods of terrorism, have banded together and are marching on Munich from several directions. They plan to retake the Bavarian capitol where the soviet government has been established by the revolutionists.

SEATTLE—The Jefferson sailed north at 9 o'clock Tuesday morning. Only two passengers were booked for Wrangell: John Arnti and Miss Eliza Smith.

WASHINGTON—The constitutionality of the Alaska Territorial fish trap act and the Alaska fish canning license act, were sustained by the U. S. Supreme Court in a decision dismissing the appeal of the Alaska Pacific Fisheries Co.

PARIS—A Zurich despatch says that the Bolsheviks are in control of the Workmen and Soldiers' Congress at Munich where a Soviet government has been set up, and that they have declared martial law throughout Bavaria.

GENEVA—Luxemburg has been officially proclaimed a Republic, according to dispatches arriving here today. No mention is made of the new officials or cabinet.

PARIS—During the coming week plans will be worked out so as to shackle Germany and prevent her from renewing war. The peace conference is considering the proposal made by Marshall Foch a few days ago for the disarmament of Germany on land and sea.

WARSAW, POLAND—Premier Ignace Jan Paderewski, in defending Poland's right to a big army said that the Bolsheviks must be fought "with bullets, not Bibles." He declared that Bolshevism imperils civilization. If Poland perishes, America will perish, he predicted.

HONOLULU, H. T.—Premier Hara told the Japanese Diet that the League of Nations does not meet with Japan's ideas and that its constitution must be modified before Japan can join, according to Nippu Jijio, Tokio correspondent.

BERLIN—Railway communication to Magdeburg has been stopped by the strike which is spreading to Leipzig. The Spartacists precipitated the trouble. Authorities here are making a house to house search in Berlin for concealed weapons, anticipating further trouble.

STOCKHOLM—Dispatches arriving here daily continue to report the ravages caused by the typhoid epidemic in Russia. In one city hospital in Petrograd, forty nurses and twelve doctors have died of the disease.

MONTREAL—As a result of a fire which destroyed a boarding house Monday morning, eleven persons are believed to have burned to death while another probably will die, having received fatal injuries.

PARIS—The question of scrapping submarines which is before the Peace Conference, is being discussed by the London papers it is learned here. It is said on high authority that the British Admiralty is strongly in favor of the total prohibition of submarine building and of the use of submarines in warfare.

Naturally, this would be subject to a general international agreement and to the right guarantees and safeguards. In view of the fact that the British are far ahead of all other nations in regard to the actual possession of submarines and of their potential production, their attitude is all the more to the point.

VIENNA—Reports reaching here from the Austrian Tyrol say that Ludwig, the deposed king of Bavaria has fled into Austria and is seeking shelter in the Otis valley.

SEATTLE—(3 o'clock Thursday afternoon)—The unions are taking a referendum vote with every indication that the shipyards will be reopened Monday with the old scale of wages.

JUNEAU—The territorial legislature convened Monday with Senators Dan Sutherland of Ruby and Iditarod and John Ronan of Seward absent.

The House organized and elected E. J. White of Douglas as speaker; H. F. Morton, chief clerk; Mike Joyce, sergeant at arms.

The Senate is awaiting the arrival of Senator Dan Sutherland before completing the organization. L. C. Hefs of Fairbanks and James J. Frawley of Nome are both being mentioned for president of the Senate. In the meantime Senator John Sundback is acting as president.

Some apprehension is being felt for the safety of Senator Dan Sutherland who is now several days overdue. He is on board his halibut Francis.

WASHINGTON—Late Monday afternoon the governors and mayors in conference here with President Wilson on the labor situation passed a resolution indorsing Secretary Wilson's proposal to deport all persons advocating the overthrow of the Government. Secretary Wilson, of the Labor Department, presided at the meeting and characterized the recent strike in Seattle, Butte, and Lawrence, Mass., as attempts to establish a Soviet government in the United States.

The House 21 to 41 passed a resolution declaring in favor of self determination for Ireland.

President Wilson announced that no matter how many important bills failed of passage, he would not call an extra session now. He left for Paris via New York City on the S. S. George Washington Tuesday night.

Congress adjourned at noon Tuesday. The filibuster campaign conducted by the Republican senators led by Sherman, killed many important bills. The filibuster was determined and bitter and fraught with many sensational features.

President Wilson signed the bill providing for the maintaining of the price of wheat at \$2.26 per bushel and the Victory loan for seven billions.

Thirty-seven of the Republican senators informed President Wilson that they were unalterably opposed to the League of Nations constitution as outlined.

President Wilson in a public statement issued here Tuesday said in part: "A group of men in the senate have deliberately chosen to embarrass the administration to imperil the financial interests of the railway system of the country and to make arbitrary use of the powers intended to be employed in the interests of the people. It is plainly my present duty to attend the peace conference in Paris. I take it for granted that the element who have obstructed and prevented the passage of necessary legislation are willing to assume the responsibility of the impaired efficiency of the Government and the embarrassed finances of the country during the time of my enforced absence."

Filibustering in the senate killed the following bills, Navy and Army; Indian Agriculture; the Sundry Civil, general deficiency bills; \$100,000,000 bill to provide for farms and houses for the soldiers and sailors, and the oil leasing and water power bills.

An eleven pound son was born to Mr. and Mrs. David D. Daily at 3:30 this afternoon.

There is a mayor to be elected and also two members of the school board—one member to serve two years who will succeed Dr. J. L. Bulkley resigned, and one member to serve three years who will succeed Hon. P. C. McCormack whose term expires this year. Our next issue will contain a notice of a caucus for the purpose of nominating candidates for election.

PRE-LENTEN SOCIAL

By Pupils of St. Philip's Bible School

It has been said that Wrangell's social pace is maddening. Whether this is true or not, Wrangell for the past few weeks has enjoyed itself, and St. Philip's Bible School has been no exception. First came the play, and then followed the social given for the boys and girls as a "Thank you" for the excellent work they did for the play.

The primaries came in the afternoon. About 25 were present. It was a beautiful afternoon and most of the play was out of doors.

The evening was the time for the juniors and seniors. About 50 were present. This included a few guests from the outside, specially those who had assisted in the play. The evening program consisted of Scout sports, volley ball, etc. The refreshments consisted of ice cream and cake.

School Teacher Engaged to Clergyman

The Anchorage Times announces the engagement of Rev. Edwin Hughes, rector of the Episcopal Church at Anchorage, and Miss Lura Elwood, organist in the same church. The bride-to-be came to Anchorage last September and is a teacher in the Anchorage public schools.

HOME FOR SALE

One 6-room, 1½ story house, mostly furnished; lot 150 frontage and 165 feet deep; warranty title; price and terms reasonable. Apply to me, WM. G. THOMAS.

Wickstrom Married

John Elmer Wickstrom and Miss Anna Marie Peterson were married recently at Fairbanks by Commissioner Hellig. Both have resided in Alaska for years in the vicinity of Fairbanks.

The regular monthly meeting of the Wrangell Fire Department was held in the town hall Monday evening. The matter of a fire alarm system was discussed at some length. The secretary was directed to address a letter to the town council asking for a fire alarm in the region of the cannery, and also urging the importance of a general fire alarm system.

A committee was appointed to arrange for a stag party to be held in the near future.

The Gold Nugget mine, one of the first gold prospects discovered in the Ketchikan district which runs free gold has again been opened up. The owner, Martin J. Bugge is very optimistic over his property and will take out a number of men to work the mine. He has sunk a 50 foot shaft.

WESTON DALGITY

FORGOTTEN HEROES IN ALASKA

(Boston Herald)

In these triumphant hours, when all America is showering well-deserved plaudits upon our victorious boys in France, I would like to call the attention of your readers to a little band of American soldiers who are doing their bit in our own country, under circumstances requiring as much courage and endurance, and as fine a brand of patriotism and self-sacrifice as that which inspired our heroes at the front. These boys enlisted before the first draft was called, hoping thereby to be given the precedence in going to France to fight the "Hun." To their bitter disappointment they were ordered instead to Alaska, to guard the Government property at the great Matanuska coal fields near Anchorage—one of the most desolate, God-forsaken regions in the world.

In this land of horror it is night for half the year, and the temperature is 60 degrees below zero. Piercing blizzards sweep down from the mountains and bury the land beneath 20 feet of snow and ice and raging tides in Cook inlet—the nearest harbor—prevent the entry of any ship after winter sets in, thus cutting them off utterly from the outside world, except when a dog team struggles to them overland with the mail. In summer the conditions are almost worse, for then the land is converted into a swamp in which breed countless millions of the most virulent mosquitoes.

But, perhaps, the hardest thing of all for them to bear is that they are forgotten and ignored by the people back home in the States. Neither the Y. M. C. A., nor the K. of C. have given them "Hut" or "Canteen," the Red Cross has sent them no sweaters and socks to keep them warm, no nurse to minister to them in sickness. The library association has sent no books, nor has any other organization done anything to ameliorate their lives. "Recently the influenza has attacked them, and, having no hospital, they have to care for their sick themselves, in their own barracks—it is difficult to see how any of them can escape infection under these circumstances. But with all this hardship to endure, are they downhearted? No. They have set their jaws in grim determination to do their soldiers' duty where they have been ordered to stay, and there is something very fine and splendid in the undaunted courage with which they have accepted their most intolerable lot.—A Soldier.

After reading the foregoing article several kind-hearted Eastern ladies felt that here was an opportunity to do some practical missionary work. They wrote to the War Department praying that something be done to relieve the sufferings and hardships of the "forgotten heroes" in the "most desolate and God-forsaken region in the world," and offering to do anything in their power to help relieve the situation.

The matter came to the atten-

tion of First Lieutenant Charles P. Knights commanding the 30th Battalion, U. S. G., at Anchorage. The information he received gave only a hint at the subject matter. The Lieutenant, not exactly understanding the case, wrote for a copy of the article, but before it was received made the following statement for publication in Boston:

Anchorage is a flourishing and modern town of some 12,500 souls and is headquarters of the Alaskan Engineering commission which is engaged in the construction of the Government railroad from Seward to Fairbanks. It boasts a "movie" house which would do credit to any of the larger cities of the United States and through the courtesy of Captain Lathrop, the owner, all the members of this command are admitted free at all times. I doubt very much if such courtesy is extended elsewhere. The people of Anchorage have opened up their homes to the men, provided stockings for each one at Christmas, supported all entertainments given by them and have aided in every way to give them that touch of home life that is so appreciated by men so situated.

An active and efficient chapter of the Red Cross located here, besides contributing their share to Belgian and French relief work and the needs of the overseas forces, have supplied the men with sweaters and socks and have always been on hand at their work rooms to do the necessary mending of clothing.

In addition to the army doctor stationed with the command, the services of the medical department of the Alaskan Engineering commission are at our disposal. The well equipped hospital of the commission handles all hospital cases. The men are housed in steam-heated barracks of the most modern type and containing all conveniences.

While digging through frozen gravel on Horseshoe creek in the Kobuk country prospectors unearthed the skeleton of what is said to be a prehistoric mosquito. The skeleton was about the size of an eagle of our day, but conformed to the Alaskan mosquito of today in general appearance. The bones were all dug up and the insect has been reconstructed and will be sent out to a museum. It would take some of these birds to get through the hides of our delinquent subscribers.—Valdez Miner.

ILL EFFECTS OF FIREMEN'S BALL

Too Much Dancing Not
Good for Adolph

(Douglas Island News)

Adolph Engstrom of the J. W. Martin Co. was one of the most enthusiastic dancers Wednesday night at the Firemen's ball in Juneau. He is a Douglas fireman and as a representative of the department thought it his duty to dance every dance until the ferry was ready to leave.

The morning after, he tumbled out of bed and went to his work in a kind of trance. He saw visions of charming girls in party dresses floating before his eyes all the way down the street. They were still floating in front of him, tantalizing him and interfering with his work when he arrived at the store.

He was standing in front of a looking glass in the store when one of the visions beckoned to him and he made a grab for her to swing her out on a fox trot, and the next thing he knew he was awakened from his trance by the tinkle of breaking glass and found that he had kicked a hole through a showcase.

That woke him up for the rest of the day and he made up his mind that in the future he would pinch himself good and hard each morning after having been to Juneau, to see if he was awake and to drive the thought of those charming Juneau girls out of his mind.

The Country Church Is the Nation's Bulwark. Go to Church.

LARGE percentage of the big men of this big country come from small country towns. Most of the REAL BIG MEN never forget their boyhood days when they went to the SMALL COUNTRY CHURCH. The simple lessons that were taught there have GUIDED THEM THROUGH LIFE. Their lives have been clean. Clean living made for their success.

When the GO TO CHURCH campaign was launched these men took a commendable interest in it. By attending church they set a SPLENDID EXAMPLE to the careless and indifferent. When a real big man GOES TO CHURCH the act is MORE POWERFUL THAN A DOZEN SERMONS. Clear thinking people are quick to see that there is something REALLY WORTH WHILE AND SUBLINE in the church.

THE COUNTRY CHURCH LAID THE FOUNDATION FOR THE LATER SUCCESS IN LIFE. READ THE LIVES OF THE GREAT MEN OF THE COUNTRY. THEY TAKE PRIDE IN RECALLING THEIR EARLY RELIGIOUS TRAINING—THE FINE IDEAS THAT WERE INCULCATED WHEN THEY WERE YOUNG. SURELY THEY PUT TO SHAME SOME OF THE SCOFFERS AT RELIGION AMONG THE FLIPPANT YOUTHS OF THIS MATERIAL AGE. YOU CAN COUNT ON YOUR FINGERS THE NUMBER OF SUCCESSFUL MEN WHO DO NOT GO TO CHURCH.

The plea of some who have fallen away from the church is that they are TOO BUSY to attend church. Yet men whose time is WORTH \$100 OR MORE AN HOUR do not begrudge an hour or more for God on the Sabbath.

No man is too busy to attend church. If he is successful he should GO TO CHURCH to thank God for his success. If he is struggling he should ask God's help.

GO TO CHURCH NEXT SUNDAY.

Boys Should Be Taught to Know What the World Needs

By WILLIAM HOLMES DAVIS, Head Master, Danville School, Va.

THE great majority of men crave the ability to make money. They believe that they could work everything else according to their will if they only had great riches. The man who has this gift and does not use it is rare. He is accounted a fool by most of his fellow men. And yet those whom the world has placed in its halls of fame have not been money makers. MONUMENTS ARE RAISED TO THE GREAT AND NOT TO THE RICH.

But the richest man may be the greatest man, and in a progressing world there will be more and more a closer union between riches and greatness and personal happiness. It is a laudable ambition for every man to want to be a money getter. In the school the boy should be taught those things that will help him to earn a great deal more than a living for himself. But this is not all.

In the school the boy should be taught those things that help him to know what the world needs today and what it will need tomorrow and should have constantly to consider the best means of supplying those needs. But a boy may be taught to be a great money getter in a great business and yet not measure up to our definition of the most successful man.

HE MAY STILL BE A MISERABLE MAN AND A FAILURE AS A MAN AMONG MEN.

Need of More Intimate Co-operation Between Citizens and School Boards

By FRANKLIN B. DYER, Superintendent Public Schools, Boston

THERE is no other co-operative agency so much needed by the school as the home. There never was a time when the need was so great for intimate connection between the home and school as at present. The conditions of modern life are so complex, opportunities for good and evil are so numerous, the occupations of the home are so meager unless they are related to the school and the work of the school is so abstract unless it has a practical outcome in the home that it is IMPERATIVE FOR PARENTS AND TEACHERS TO GET TOGETHER.

The co-operation should not be confined to a sentimental regard and respect of each for the other. The training of each must supplement the other. Such co-operation can come about in no other way so well as through organizations that bring parents and teachers into friendly and frequent association.

A plan of citizen co-operation with the city school board has been suggested. This plan provides for an advisory council of citizens to consist of local committees to represent each school district appointed by the school and home associations of the district.

THIS PLAN INVOLVES THE ULTIMATE ORGANIZATION OF A HOME AND SCHOOL ORGANIZATION IN EVERY SCHOOL DISTRICT IN BOSTON.

Our Greatest Need Is an Intelligent Com- prehension of Ideals of Democracy

By CHARLES E. HUGHES,

WE want patriotism, and I don't think we are going to lose it very soon, although I do devoutly hope that out of the perils and difficulties of this time may come a new birth of the sentiment of unity.

I do hope that in the midst of all these troublesome conditions we have a better realization of our national strength and of the import of our democratic institutions.

We need not vast extent of territory, not great population, not simply extraordinary statistics of national wealth, although they speak in eloquent words of energy and managing ability, BUT WHAT WE NEED MORE THAN ANYTHING ELSE IS AN INTELLIGENT COMPREHENSION OF THE IDEALS OF DEMOCRACY.

Those ideals are that every man shall have a fair and equal chance according to his talents. It is not an ideal of democracy that one alone shall emerge because of conspicuous ability, but that there shall be a great advance of the plain people of the country, upon whom the prosperity of the country depends.

WE DEPLORE EVERY CONDITION IN WHICH WE FIND MAN LOWER THAN HE SHOULD BE UNDER A FREE GOVERNMENT. WE WANT VICTORIES OF DEMOCRACY THAT THE LEVEL OF SUCCESS SHALL BE RAISED.

Prosperity of the Farmer the Funda- mental Basis of All Business Success :-

By CARL VROOMAN, Assistant Secretary
of Agriculture

THE prosperity of the farmer is to the business world what soil fertility is to the agricultural world, the fundamental basis of all permanent success. Many farmers in the past have made the mistake of thinking that they could get rich by skinning the soil, and many business men likewise have made the mistake of THINKING THAT THEY COULD GET RICH BY SKINNING THE FARMER.

The only way that the farmer can make a permanent success of farming is to keep up the fertility of the soil, and the only way that the business world can be permanently successful is to insure the continued prosperity of the farmer.

When a banker loans a farmer money he should loan it to him at a rate of interest and for the kind of investment that will enable the farmer not only to pay back his loan, but to gain for himself a margin of profit.

The railway manager who makes rates for the farmer for shipping fertilizer and other merchandise to the farmer and for shipping the farmer's produce to market should make a rate that will leave the farmer a margin of profit. The middlemen who handle the farmer's produce should endeavor to get him such prices and should charge him only such commissions as will leave the farmer a margin of profit.

IN THE LONG RUN IT IS ONLY THUS THAT THE BANKS, THE RAILROADS AND THE COMMISSION MEN CAN INSURE THEIR OWN PROFIT.

A Small Fire

The Wrangell Fire Department was called out Monday by a fire in the residence of Harry Ferguson. A hole was burned through the roof before the fire was extinguished.

This blaze served to emphasize the need of a better fire alarm system. When Mrs. Ferguson discovered the fire there was no one in sight, and it was necessary for her to run a distance of several blocks in order to give the alarm. When she reached Matheson's store she was out of breath. All she could say was "Fire!" and point in the direction.

The Fire Department held a meeting the same evening and memorialized the town council for a better system of fire alarm.

MRS. ROY COLE GIVEN A SURPRISE PARTY

Pleasant Event Takes Place at the Wrangell Hotel

One of the most delightful surprise parties that ever occurred in Wrangell took place Monday evening at the Wrangell hotel and was perpetrated on Mrs. Roy Cole.

Mrs. Cole, who spent the winter in Seattle and San Francisco, is here on her way to the West Coast.

The surprise party was gotten up by Mrs. J. G. Grant and Mrs. Oscar Carlson, and was so cleverly planned that the lady from Deweyville had not the slightest suspicion that anything was going to happen to break the monotony of a cold winter evening.

As a part of the surprise plan Mrs. Coulter invited Mrs. Cole to spend Monday afternoon with her. When Mrs. Cole started to take her leave for the hotel Mr. and Mrs. Coulter persuaded her to remain for dinner, and after dinner a game of cards was played. It was about 8 o'clock when Mrs. Cole left the Coulter home for the hotel. Upon reaching the hotel she met Mr. Grant in the lobby and inquired, "Where is Mary?" (meaning Mrs. Grant.) Mr. Grant replied, "I believe she went back to the pantry for something." Mrs. Cole started out to follow her up. She had to pass through the dining-room and when she entered it was dark. As she was feeling her way to the pantry entrance the lights were turned on and she was greeted by her friends. It would hardly be possible for any one to be more surprised.

Tables were arranged for progressive whist and the guests entered into the game with much enthusiasm. At the close of the games it was found that Mrs. J. W. Pritchett had made the highest score of any lady. She was awarded the ladies' first prize, a most exquisite hand-embroidered tea apron. The gentlemen's first prize went to W. W. McLoughlin. It was a lovely scarf, a trophy of which he could well be proud. The Shurick family had a corner on the remaining prizes, Dr. and Mrs. Shurick both receiving consolation prizes.

Following the card games delightful refreshments were served.

It was after midnight when the guests departed, all rejoicing.

On Monday afternoon of last week the seventh birthday of Marjorie Johnson was duly celebrated by a party given in the Gymnasium. Twenty-five of Marjorie's schoolmates were present and the time was passed most pleasantly. There were a variety of amusements, and a number of children's games were played. The affair was in charge of Marjorie's mother, Mrs. M. O. Johnson, assisted by Mrs. Ernest P. Walker. During the afternoon delightful refreshments were served.

Oscar Carlson has been indisposed since the first of the week.

Three candidates were initiated into the Redmen Tuesday evening. They were W. W. McLaughlin, Earl O. Shangle and Arnt Sorset. The Redmen's degree team which was organized last year have been rehearsing regularly, and the initiatory ceremony on this occasion was performed with true histrionic effect. The lodge meeting was followed by a social session at which a delicious lunch was served.

Siberia is alluring to many mining capitalists, but Alaska offers better inducements, according to R. M. Courtney, secretary of the Anchorage Chamber of Congress.

With the Government railroad tied up and the necessity of transporting supplies partly by train and partly by dog team from Seward to Anchorage food prices in Anchorage have risen and a serious shortage of a number of food items now exists, according to W. J. Henry, formerly with the railway commission, who passed through here recently on his way to Seattle. All sugar in Anchorage has been sold out by the stores and but little butter remains. Eggs are selling for \$1.50 a dozen. The commission expected to be able to keep the railroad open this winter and the stores at Anchorage did not make any preparation for the long period of isolation they now are experiencing.

Farther north than any other steamer line on the North American continent lies the route traveled regularly during the summer by the stern wheel steamer McKenzie River, a light draft boat which plys a stretch of the Arctic Ocean between Herschel Island and Fort McPherson, a Canadian outpost at the mouth of the Mackenzie river. The boat belongs to the Hudson Bay company.

Bob Griffins, veteran Alaska musher, left Seward a few days ago for his return trip to the Iditarod. Griffins had 16 dogs and two sleds tandem. Twelve cases of eggs, two cases of lemons, two cases of oranges and 500 pounds of latest magazines and Sunday papers constituted the shipment. He is traveling alone and telegraphic reports show that he is making fast time.
